## WHAT IS VALUFACTURING

“Valufacturing” is a hybrid concept combining “value creation” and “manufacturing”. It represents a new paradigm for the manufacturing industry – one that goes beyond traditional manufacturing to lead the era of value revolution.

## IMPORTANT DATES

Abstract  
Submission **MAR. 29**

Early-bird  
Registration **APR. 10**

## MAIN TOPICS

- INTELLIGENT MANUFACTURING & MATERIALS TECHNOLOGY
- HUMAN-CENTRIC MANUFACTURING TECHNOLOGY
- SUSTAINABLE DEVELOPMENT TECHNOLOGY
- POLICY AND STRATEGY
